E-commerce for education
Everything you need to sell uniform & other items online

sQuidShop enables schools, colleges and universities to sell uniform and other items online, direct to students and parents. This powerful e-commerce software has been built especially for the education sector and uses the latest website, shopping cart and checkout functionality to deliver a seamless shopping experience. A comprehensive back-office system is also included to monitor stock levels and track sales, and all payments are made using sQuid - so it's convenient for students and parents as they use their sQuid accounts to pay.
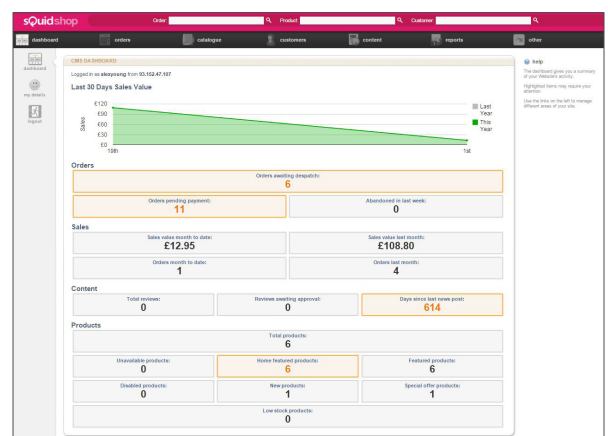

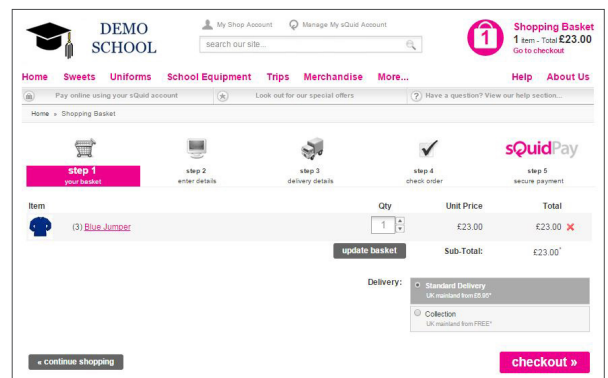

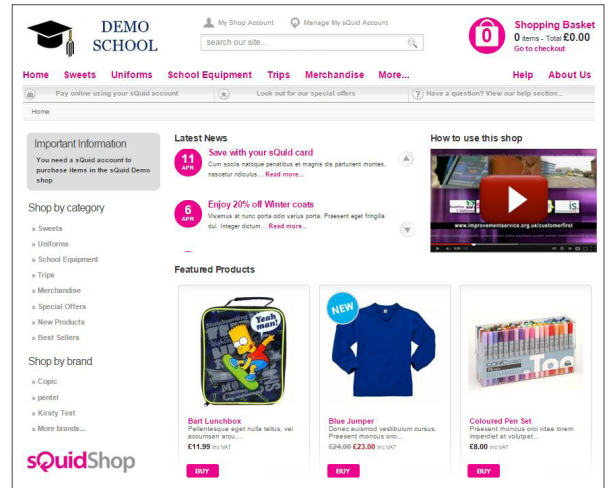

Benefits

- Sell uniform, campus merchandise and other items direct to students and parents
- Run a professional e-commerce site for your school or campus
- Increase cash flow into the school, college or university
- Reduce cash handling
- Peace of mind support from sQuid customer services
- Convenient for customers - they use their sQuid account to pay

Site features

- Fully customisable product set and categories
- Add new products, images and videos
- Your school logo on the homepage
- Secure shopping cart and checkout process
- Built-in help video
- Latest news, special offers and promotions are easily added to the site

Back-office features

- Easy-to-use sales dashboard - view all of the key shop information in one place
- Run a range of reports - including orders, sales, best sellers and low stock
- Manage your products, product descriptions and stock levels with the in-built Content Management System (CMS)
